WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 9012

SESSION NUMBER: 1

DATE OF SESSION: 3 Apr 90

DATE OF REPORT: 3 Apr 90

START: 0927

END: 1005

METHODOLOGY: solo

VIEWER IDENTIFIER: 018

1. (S/STD) MISSION: Provide information on narcotics-smuggling operation involving a suspect vessel.
2. (S/STD) VIEWER TASKING: Encrypted coordinates, a map of the Northern Hemisphere from the east coast US to western Europe, and the vessel's name.
3. (S/STD) COMMENTS: No Personal Inclemencies.
4. (S/STD) EVALUATION: Viewer's results are plausible. Search location results are very much in harmony with known ops data, with the exception that the off-load location is given as being along the coast of France, while ops data indicates an actual West Indies destination. Viewer noted on map (but not in summary) a location of "peculiar interest" in the Caribbean at vic 53deg W/19deg N which may be the true location. Confidence estimate: 60%
5. (S/STD) SEARCH EVALUATION:

WORKING PAPER

Project: 9012
Date: 900403
Time: 0927-1005
Viewer: 018
Session: 01

SUMMARY OF INFORMATION:

SG1A

1. (S/STD) Determine if the [] is indeed carrying contraband narcotics: Yes. Two "types" or "portions" of narcotics were detected:

a. There appear to be people on board (both males and females) who are using drugs "recreationally" at the time of the viewing session.

b. A stash of "cargo" drugs (see item 3 below for location).

2. (S/STD) Determine the current location of the vessel: At the time of the session (0950 hrs., 3 APR 90) the vessel was located through several attempts to be in the general area of 44 degrees N/10 degrees W (see Fig. 1, Map, for X-marks).

3. (S/STD) Where is the narcotics contraband located aboard the vessel?: The "cargo" drugs appear to be located slightly forward and approx. half-way up the structure of the ship (see sketch, Fig. 2). They are located under the flooring. The particular portion of the flooring appears to also have a raised flooring over it, made of thin wooden strips (like the raised flooring behind a butcher-store counter or restaurant kitchen).

4. (S/STD) Where will the off-loading/transfer of the narcotics take place?: Present projected location appears to be the southwestern coast of France (see Fig. 1, Map, for O-marks).
